# Projected Capacitive USB/RS232 Touch Panel Controller

eGalax\_eMPIA launched touch control board to meet latest Restriction of Hazardous Substances (RoHS) Directive. This touch panel controller provides the optimistic performance of your projected capacitive touch panels. It communicates with PC system directly through USB/UART connector. You can see how superior the design is in sensitivity \( \) accuracy and friendly operation. The touch panel driver emulates mouse left and right button function and supports operation systems as following.
